General Comment

I certainly oppose this proposed federal rule (dictated law) to implement a federal health insurance exchange in every State in the country. I oppose claims that the exchange will provide "choice," "competition" and "clout" when it will actually restrict health insurance options, violate patient privacy, monitor my compliance with the unconstitutional individual mandate to purchase health insurance, and expand government dependency into the middle class through federal subsidies. The rule uses the word "require" 628 times. This means federal control. I request the proposed rule be withdrawn until the U.S. Supreme Court issues a ruling on the constitutionality of the federal health care reform law.
